

Dear Parents,

I take this opportunity to convey my best wishes for you and for all our students. In these unprecedented times you as parents have stood by the school to take forward the children's education. You have used new technology like zoom classes to enable our teachers to continue with this new academic year's syllabus.

I want to assure you that, as always, we shall do our best to ensure that the best quality of education is provided to our students. That is our solemn duty.

As we go forward, I am confident that the parents will support our endeavours wholeheartedly. Please fulfill all your commitments towards your child's education at the earliest to enable the school to function smoothly.

I wish you all the very best. God bless each one.

Mrs. U. Andrews
